ADAF 2022 - OPENING AT LAVALLEE

Source: Pierre Martin / LaVallée

The first edition of the ADAF - A Domestic Art Fair took place in LaVallée from 2 to 5 June 2022. Over the course of four days, around 1800 people visited the fair. The fair featured the works of 74 Belgian-based artists, who were asked to produce an object specifically for the occasion, linked to the world of the domestic.

Our intention was to reintroduce art objects into the everyday circuit and make them economically accessible to a public that is sometimes uninitiated to the world of art and design. The key moments of the fair were the opening, the performances, ADAF talk, and the concerts. We are pleased with the success of this first edition, especially since a good percentage of the pieces produced were sold on the spot.

Overall, the ADAF - A Domestic Art Fair was a success for us. It allowed us to showcase the works of talented Belgian-based artists and popularize the acquisition of pieces designed by artists. We hope to continue this tradition in the coming years, and look forward to seeing even more interest in the world of domestic art.
